No Cost

Course Overview

Designed for law enforcement personnel, criminal analysts, and community-based organizations, this intensive course will elevate your ability to combat narcotics trafficking by mastering the full intelligence cycle. Through immersive, hands-on exercises and a realistic capstone project, you will sharpen your critical thinking, learn to dissect threat finance networks, and harness advanced tools to transform raw information into actionable intelligence. Enroll to gain the essential analytical skills needed to dismantle criminal enterprises and make a decisive impact on your community's counterdrug efforts.

You will learn:

- **Intelligence Cycle:** Plan, collect, analyze, disseminate and evaluate actionable intelligence
- **Critical Thinking:** Challenge assumptions, reduce bias, and enhance analytical rigor
- **Human Source Intelligence:** Understand approach techniques and how to build a questioning plan
- **Criminal Finance:** Identify financial red flags and money laundering methods criminal use
- **Effects-Based Planning:** Link analysis to operational outcomes and measure impact
- **Databases and Resources:** Get access to the information you need to fill intelligence gaps
- **Pattern Analysis Tools:** Assemble and organize information to identify patterns of activity
- **Realistic Capstone Project:** Apply skills learned to an eight-hour scenario-based exercise that simulates real-world law enforcement operations
