

MAXIMIZING THE JUDICIAL IMPACT OF NON-DRUG EVIDENCE PROVING KNOWLEDGE AND INTENT

**SEPTEMBER 25, 2025
SEATTLE, WA**

**NO-COST TRAINING
PROVIDED BY NORTHWEST HIDTA**

COURSE DESCRIPTION

Narcotic investigators and prosecutors face four defenses which are raised time and time again by the defense bar at trial: 1.) I did not have anything to do with it; 2) I didn't know about it; 3) That's not mine; and 4) It's mine, but I don't distribute it. Armed with the knowledge of these recurring defenses, investigators can focus on the non-drug evidence which establishes knowing and intentional criminal drug conduct. This course is designed to help you identify this critical evidence and provide you with the most recent case law to make sure the court will allow your prosecutor to use this evidence at trial. Course is presented by Vanessa Losicco, a career prosecutor and Instructor with the International Narcotics Interdiction Association.

Course Length: 8 hours (8am - 4:30pm)

Training Location: Specific location will be provided after registration

Attendees: Course is open to all law enforcement officers, intelligence analysts and prosecutors
