Students will also explore the history of cryptocurrency and how criminals procure and store these assets.

Day 2: Crypto Seizure Methods, Net Worth Analysis, Information Collection Resources

Students will have hands on experience of seizing Bitcoin through practical exercises.

Students will learn methods to identify unexplained income and fraud detection.

Students will explore a variety of databases and resources available for case support.

Testimonials

"This will really help me decipher what I am seeing in the field" Analyst 8.5 Years Experience

"Excellent training for fraud investigations. Really enjoyed group projects" Investigator, 28 Years Experience

"Outstanding job! The best Threat Finance course I have ever attended, and the most thorough. Surpassed any and all expectations of someone with 20 years of experience" Analyst, 20 Years Experience

"Great course! I knew nothing about crypto except the name. After the course I feel like an expert! Thank you for a great class!" Investigator, 14 Years Experience

"Really good class even for someone with a CPA and Certified Fraud Examiner certs. Did a good job of keeping things relevant to LE and investigations and focusing on topics that are not covered in more public/industry focused classes" Analyst, 3 Years Experience

"This course blew me away. Instructors were highly knowledgeable and engaged the class very well. The different learning tools and formats were very effective" Analyst, 8 Years Experience
